Open Response Questions

Please use the following section to provide more feedback about the TA.

11

What was your overall opinion of the TA's efforts? State weaknesses and strengths.

(Text/Memo)

- I was impressed with the efforts. Stephanie was very effective in creating an environment in which people felt comfortable and safe discussing a topic that often makes people uncomfortable. She also carried herself well, with a confidence that encourages participation and engagement. Probably the best TA I've had in college.
- Stephanie was an outstanding TA and answered all of our curiosities clearly.
- She is seriously one of the best TA's I have ever had. She knew the material and even pointed out some of the materials weaknesses showing how she critically thinks about this course material. She made class fun as well as a safe environment. Like I would literally be her friend outside of the classroom because she was so cool.
- Stephanie was a really great TA, she was great at leading discussions, respectful to students, and was intelligent when speaking about sexuality.
- I actually had Kalley as my TA not Stephanie. Her overall strengths was the environment that the class was presented in made it a welcoming and safe, which in turn made it easier to participate and share. Weaknesses would probably be just keeping a discussion going sometimes, but we also had a small section so you can only do too much.
- Stephanie Ward put in a lot of effort into our discussions! She made them fun and educational, asked thought-provoking questions, and was extremely knowledgeable about the topics we learned in class. She went above and beyond for her students and was willing to assist them anyway possible. She also taught two lectures when Dr. Hyde was absent and did a great job doing so! I can see her doing amazing things in the future within the psychology field as she's intelligent, well-spoken, down-to-earth, and has immense charisma. When I needed someone to offer advice on my future career/educational aspirations, she offered me guidance and extremely useful information. She is by far the best TA I've had at UW-Madison!
- Stephanie has been one of the best TAs I have ever had. Not only did I think she was an over the top TA, she made sure that we were all comfortable enough to speak up during discussion lectures. She would have creative ways for the class to participate and get everyone out of their shells, at least she made me get out of my shell and I can't thank her enough.
- Stephanie was one of the best TAs I have had in my two years at UW. She was interactive, respectful and informative, and made the discussions seem effortless
- She was very very good at encouraging participation in discussion of heavy or awkward topics. she provided a very inclusive environment. provided positive reinforcements after you spoke.

Please comment on whether the TA performed assigned duties such as meeting classes promptly and regularly, being available for scheduled office hours, etc.

(Text/Memo)

- TA performed all assigned duties.
- Everything was held promptly, though my emails were rarely responded to.
- She always was on time and answered emails very quickly.
- She was available for all class meetings!
- Always on time in class. I did not use office hours
- Stephanie Ward was always on-time to discussions, well-prepared, available for office hours (and would offer to meet at other times if a student wasn't available), and graded assignments quickly and efficiently.
- Class was never cancelled, we always met on time and even if class was finished, sometimes she would stay after and answer couple questions. She was always available when needed, and would go out of her way to fit into our schedules if we couldn't meet during her office hours - very flexible.
- she was regular with all the duties
- Yup!

If the TA had responsibility for assignments such as exams or lab reports, please comment on the fairness in grading, promptness in returning exams, adequacy of feedback, etc.

(Text/Memo)

- Given how busy she is, I think that all assignments were given back fairly and promptly.
- Not sure.
- She graded very fairly and left comments on what could be approved upon.
- She is very fair with grading, but maybe a tad slow with the biggest paper in the course.
- We didn't get our actual exams back, so it was kind of difficult to know which questions I got wrong and how to better prepare for the next exam.
- We really haven't gotten grades yet back at this point for our papers and participation points but feedback is amazing.
- She was fair in her grading of writing assignments, offered thoughtful and kind comments to her students, and promptly returned graded assignments.
- I thought all grading that the TA did was fair. I really enjoyed the lengthy feedback we would get, and then it would continue onto our class discussions - there was always feedback given, whether it was individual or as a class.
- fair grading

- The climate in the classroom was AMAZING! People were not afraid to share things, especially when talking about some sensitive subjects. I liked the way Stephanie facilitated discussions.
- Overall one of the best classroom climates
- She did a great job at creating an open and inclusive environment for her students. I felt comfortable speaking and stating my opinions in a nonjudgemental environment as well as had the opportunity to discuss various topics/educate myself on topics I didn't know much about.
